Re: ICE FOIA Request No. 2026-ICFO-31191 (submitted June 22, 2026). Narrowed request.

Dear FOIA Officer,

This responds to ICE's second clarification letter. I am narrowing this request voluntarily to move it to processing. This is not a concession that the request as previously framed failed to reasonably describe the records sought, and I reserve all rights arising from the elapsed statutory period, noting that FOIA permits tolling for clarification once.

RECORDS SOUGHT

Final environmental determinations issued under the National Environmental Policy Act for the facilities listed below, meaning categorical exclusion determinations, records of environmental consideration, environmental assessments, findings of no significant impact, and any notice of intent to prepare an environmental impact statement.

The date range is July 1, 2025 through 31 May, 2026, inclusive.

FACILITIES

Facility address	Facility name in ICE records
1623 East J Street, Tacoma, WA 98421	Northwest ICE Processing Center
10400, 10450, and 10250 Rancho Road, Adelanto, CA 92301	Adelanto ICE Processing Center
22844 Virginia Boulevard, California City, CA 93505	California City facility
7488 Calzada De La Fuente, San Diego, CA 92154	Otay Mesa Detention Center
806 Hilbig Road, Conroe, TX 77301	Montgomery Processing Center
830 Pinehill Road, Jena, LA 71342	Central Louisiana ICE Processing Center
3130 Oakland Street, Aurora, CO 80010	Aurora ICE Processing Center
100 Highway Terrace, Leavenworth, KS 66048	Midwest Regional Reception Center
3925 Highway 190 W, Hammond, LA 70401	No facility name known. Proposed or prospective site under consideration for acquisition or contract.

The Hammond site is a proposed or prospective facility. Please search by street address and by any project, site, or acquisition designation assigned to it. A no-records response for that site should not rest on the absence of a facility name

RECORDS EXPRESSLY EXCLUDED FROM THIS NARROWED REQUEST

Correspondence of any kind, communications with third-party firms, drafts and deliberative materials, scoping materials and technical studies, project files, administrative records, contract files, and any search of email, Microsoft Teams, SharePoint, or shared drives.

OFFICES TO BE SEARCHED

The Office of Assets and Facilities Management (OAFM) and Enforcement and Removal Operations (ERO). If another office is the office of record for these documents, please search that office as well. This is not a limitation on the search.

PER FACILITY RESPONSE

For any facility with no responsive determination, please state that on a per-facility basis rather than issuing a single global no-records response.

ADMINISTRATIVE

Please do not administratively close this request. Please confirm receipt of this narrowed request, provide an estimated date of completion, and process it under reference number 2026-ICFO-31191.

I reiterate my fee waiver request and my request for processing in the news media requester category.
