

DATA FOR GOOD

October 1, 2026

To the ICE FOIA Public Liaison,

I'm writing to dispute the administrative closure of FOIA request 2026-ICFO-41411, dated September 30, 2026. The closure letter states that the records I sought, concerning a warehouse at 1879 Route 46, Roxbury Township, New Jersey, are not within ICE's purview and should be directed to GSA. That determination is incorrect.

That determination does not hold up against ICE's own representations to a federal court. The property is not GSA-owned or GSA-leased. The Department of Homeland Security purchased it directly in February 2026.

Paragraph 4 of the Order and Joint Stipulation entered May 12, 2026, in *State of New Jersey v. U.S. Immigration & Customs Enforcement*, No. 2:26-cv-02884 (D.N.J.), ECF No. 36, authorizes Defendants, meaning ICE and DHS, to install and maintain a CCTV security system at the property. ICE represented to the court that this system is its own. GSA was not a party to that litigation and has no stated role at the property.

I'd ask that ICE reopen this request and either process it or, if some portion genuinely sits with a different component or contractor, identify that custodian specifically rather than referring the entire request to an agency with no apparent connection to the property.

My original request is attached.

I'm glad to discuss this by phone if that would help resolve it faster than a formal appeal.

Thank you,
