1. BACKGROUND

- 1.1. U.S. Customs and Border Protection (CBP) is one of the largest components of the U.S. Department of Homeland Security (DHS), with a priority mission of keeping terrorists and their weapons out of the U.S. CBP also has a responsibility for securing and facilitating trade and travel while enforcing hundreds of U.S. regulations, including immigration and drug laws. The Office of Human Resources Management (HRM) is tasked with onboarding prospective employees and providing other support services to enable the Agency to effectively carry out the law enforcement mission.

- 2.1. The Contractor must make available up to one hundred five (105) workstations (defined as a 4' to 5' wide ergonomic height table, ergonomic chair and nearby power outlet or UL-listed power strip) and facility spaces to CBP to meet CBP's month-to-month temporary space needs. The workstation space provided need not be the same from month to month, but any space provided must meet the minimum requirements specified herein.

The preliminary notice does not commit the Government to an extension.

2.5.1. If the Government exercises this option, the extended contract must be considered to include this option clause.

2.5.2. The total duration of this contract, including the exercise of any options under this clause, must not exceed 12 months.
