Floodplain Memorandum

(b) (7)(F) [REDACTED]
Project #: 8CA3614
(b) (7)(F) [REDACTED]

(b) (7)(F) [REDACTED] has submitted their formal request for space and the accompanying special requirements package to GSA, indicating a need for approximately 17000 ABOA square feet of space within a delineated area that includes (b)(7)(F) [REDACTED]

In accordance with Executive Order (E.O.) 11988 (Floodplain Management) and the GSA Floodplain Management Policy, GSA is required to review the project for practicable alternatives to locating within the 100-year floodplain.

After researching the market, and surveying several buildings, GSA has concluded that the (b) (7)(F) requirement within the delineated area can only be achieved at (b) (7)(F) [REDACTED]. GSA has therefore determined there are no practicable alternatives to locating in the 100-year floodplain. A Justification for No Practicable Alternatives has been prepared and is attached to this memorandum.

GSA has determined there would be no impacts to the floodplain as a result of the proposed new lease. Furthermore, a lease at this location will not encourage further development in the floodplain. Accordingly, it is recommended that GSA complete the floodplain compliance, as outlined in the GSA Floodplain Management Policy, and implement the proposed action.

RECOMMENDED:

(b)(6) [REDACTED]

Portfolio Management Director

APPROVED:
